EDUCATION

➜ **Samsung IT School**

➜ **Engineering lyceum of NSTU**

➜ **Online schools and courses:**

◆ *learn.javascript.ru*

◆ *Coursera*

◆ *HTMLAcademy*

◆ *Udemy*

➜ **A lot of self-studying**

PERSONAL PROJECTS (MORE ON GITHUB)

Movie Searcher   **Repo**   **Live preview**

React client for the OMDB database. Search movies, get full info such as plot, actors and more.

2che Website   **Repo**   **Live preview**

The beautiful website I created from the PSD template.

Comments System (React)   **Repo**   **Live preview**

Full-fledged comments system. Connects with one script, comments are unique for every page.

Browser Snake Game   **Repo**   **Live preview**

Snake and field settings can be edited. A lot of interactive elements (ex. drag-n-drop snake)

TECHNICAL SKILLS

JavaScript, TypeScript, React, Redux, HTML, CSS, SASS, Jest, Enzyme, Webpack, Gulp, NodeJS, Git/Github, JQuery, Bootstrap
